General Intelligence and Reasoning

Master General Intelligence for SSC JE Success!

DEFINITION

General Intelligence and Reasoning tests your ability to think logically and solve problems. It includes various types of questions that assess analytical skills and pattern recognition.

KEY CONCEPTS

Logical Reasoning

Involves drawing conclusions from premises or statements using deductive reasoning.

Analytical Reasoning

Focuses on breaking down complex information into simpler parts for better understanding.

Verbal Reasoning

Tests understanding of language and the ability to analyze written information.

Non-Verbal Reasoning

Involves interpreting visual information and patterns without relying on language.

Data Sufficiency

Assesses whether provided data is enough to answer a specific question.

EXAMPLES

→ If all cats are animals and some animals are dogs, are some cats dogs?

→ Find the next number in the series: 2, 4, 8, 16, ?

→ Which shape completes the pattern: Circle, Square, Triangle, Circle, ?

MEMORY TIPS

★ Use the acronym 'LAVND' for Logical, Analytical, Verbal, Non-Verbal, and Data Sufficiency.

★ Visualize shapes and patterns as stories to remember their sequences.

★ Practice with flashcards to reinforce key concepts and question types.

COMMON MISTAKES

✗ Rushing through questions without reading them carefully.

✗ Neglecting to practice non-verbal reasoning questions.

✗ Overthinking simple logical deductions.

QUICK RECAP

General Intelligence and Reasoning is crucial for SSC JE success. Focus on logical, analytical, verbal, and non-verbal reasoning skills. Regular practice and familiarity with question types will enhance your performance.
