General Intelligence and Reasoning

Master General Intelligence for SSC MTS Success!

DEFINITION

General Intelligence and Reasoning tests logical thinking and problem-solving skills. It assesses how well you can analyze information and draw conclusions.

KEY CONCEPTS

Analogies

Finding relationships between pairs of words or phrases to identify similar relationships.

Series Completion

Identifying patterns in a sequence of numbers or letters to predict the next element.

Classification

Grouping items based on shared characteristics or features.

Syllogisms

Drawing logical conclusions from given statements or premises.

Blood Relations

Understanding relationships among family members based on given information.

EXAMPLES

→ Dog is to Bark as Cat is to Meow.

→ What comes next: 2, 4, 6, 8, ...?

→ If A is the brother of B, and B is the sister of C, how is A related to C?

MEMORY TIPS

★ Use the acronym 'A-S-C-B' for Analogies, Series, Classification, Blood Relations.

★ Visualize relationships in blood relations using a family tree.

★ Practice with puzzles to strengthen pattern recognition skills.

COMMON MISTAKES

✗ Rushing through questions without analyzing all options.

✗ Confusing similar-sounding words in analogies.

✗ Overlooking key details in syllogisms.

QUICK RECAP

General Intelligence and Reasoning is crucial for SSC MTS. Focus on understanding relationships, patterns, and logical deductions to excel in this section.
