General Intelligence and Reasoning

Master General Intelligence for SSC Stenographer Success!

DEFINITION

General Intelligence and Reasoning involves logical thinking and problem-solving skills. It tests your ability to analyze information and draw conclusions.

KEY CONCEPTS

Logical Reasoning

Involves drawing conclusions from premises or statements to solve problems.

Analytical Ability

Focuses on breaking down complex information into simpler parts for better understanding.

Verbal Reasoning

Tests understanding and reasoning using language, including analogies and synonyms.

Non-Verbal Reasoning

Involves visual and spatial reasoning, such as patterns and shapes.

Data Interpretation

Involves analyzing data presented in charts, graphs, or tables to make decisions.

EXAMPLES

→ If A is taller than B and B is taller than C, who is the tallest?

→ Find the next number in the series: 2, 4, 8, 16, ...

→ Identify the odd one out: Circle, Square, Triangle, Rectangle, Apple.

MEMORY TIPS

★ Use the acronym 'LAVD' for Logical, Analytical, Verbal, and Data reasoning.

★ Visualize shapes and patterns to remember non-verbal reasoning concepts.

★ Create associations between words in verbal reasoning to enhance recall.

COMMON MISTAKES

✗ Rushing through questions without careful analysis.

✗ Overlooking key details in verbal reasoning problems.

✗ Neglecting to practice non-verbal reasoning questions regularly.

QUICK RECAP

General Intelligence and Reasoning is crucial for SSC Stenographer exams. Focus on logical, analytical, verbal, and non-verbal reasoning to enhance your skills and confidence.
