What is Creativity

Unlock Your Imagination: The Power of Creativity!

DEFINITION

> Creativity is the ability to think of new ideas and solutions. It helps us express ourselves and solve problems in unique ways.

KEY CONCEPTS

Originality

Originality means coming up with ideas that are new and different from what already exists.

Imagination

Imagination is the ability to form images and ideas in your mind that are not present.

Problem-Solving

Creativity helps us find innovative solutions to challenges we face in everyday life.

Expression

Creativity allows us to express our thoughts and feelings through various forms like art, writing, or music.

Collaboration

Working with others can enhance creativity by combining different ideas and perspectives.

EXAMPLES

→ Creating a new game with unique rules.

→ Designing a poster for a school project.

→ Inventing a new recipe using common ingredients.

MEMORY TIPS

★ Think of 'C.R.E.A.T.E' - Combine, Reflect, Explore, Adapt, Think, Enjoy.

★ Use the acronym 'I.P.E.C.' - Imagination, Problem-solving, Expression, Collaboration.

★ Visualize a light bulb turning on to represent new ideas.

COMMON MISTAKES

✗ Thinking creativity is only for artists.

✗ Believing there is only one right answer.

✗ Not allowing time for brainstorming and exploration.

QUICK RECAP

Creativity is about generating new ideas and solving problems in unique ways. It involves originality, imagination, and collaboration. Remember, everyone can be creative, and it's important to express yourself freely!
