What is Watercolor Basics

Unlock Your Creativity with Watercolor Basics!

DEFINITION

> Watercolor basics involve using water-based paints to create beautiful art. It's a fun and expressive medium perfect for kids to explore their creativity.

KEY CONCEPTS

Color Mixing

Mixing different colors of paint creates new shades and hues. Experimenting with colors can lead to unique results.

Wet-on-Wet Technique

This technique involves applying wet paint onto wet paper, allowing colors to blend and flow together.

Dry Brush Technique

Using a dry brush with little water creates texture and detail in your painting.

Layering

Building layers of paint allows for depth and richness in your artwork. Start with light colors and add darker ones on top.

Brush Types

Different brushes create different effects; flat brushes for broad strokes and round brushes for detail work.

EXAMPLES

→ Create a sunset by blending warm colors.

→ Paint a flower using the wet-on-wet technique.

→ Experiment with layering colors for a mountain landscape.

MEMORY TIPS

★ Remember 'WET' for Wet-on-Wet: Water Enhances Texture!

★ Think 'BRUSH' for Brush Types: Broad, Round, Unique Strokes Help!

★ Use 'CLL' for Color Layering: Light first, then Layer!

COMMON MISTAKES

✗ Using too much water, making colors too light.

✗ Not waiting for layers to dry before adding more.

✗ Forgetting to clean brushes between colors.

QUICK RECAP

Watercolor basics are about using water-based paints to create art. Key techniques include color mixing, wet-on-wet, and layering. Remember to experiment and have fun!
