Beginner lessons for Selfie Tips

Master the Art of Selfies with Simple Tips!

DEFINITION

> Selfies are self-portraits taken with a smartphone. Learning key techniques can enhance your selfie skills.

KEY CONCEPTS

Lighting

Good lighting is crucial; natural light often works best for clear, flattering selfies.

Angles

Experiment with different angles to find your most flattering side and perspective.

Background

Choose a clean and interesting background to enhance your selfie and avoid distractions.

Expression

Practice various expressions; a genuine smile or a playful look can make a selfie pop.

Editing

Use simple editing apps to adjust brightness, contrast, and filters for a polished look.

EXAMPLES

→ Take selfies during golden hour for the best natural light.

→ Tilt your head slightly to find your best angle.

→ Use a fun background like a mural or nature scene.

MEMORY TIPS

★ Remember 'LEABE': Lighting, Expression, Angle, Background, Editing.

★ Think of 'Selfie' as 'Smile, Enhance, Light, Frame, Include.'

★ Use the acronym 'FAME' for Flattering, Angle, Mood, Editing.

COMMON MISTAKES

✗ Ignoring lighting, leading to dark or washed-out photos.

✗ Taking selfies from straight on, which can be unflattering.

✗ Neglecting the background, resulting in cluttered or distracting images.

QUICK RECAP

To take great selfies, focus on lighting, angles, and backgrounds. Practice different expressions and use editing tools to enhance your photos.
